Transmission sprocket with a **19 mm bore**, compatible with **428er** chain type and corresponding to the **08B1** standard with a **12.7 mm pitch**. It is available in several variants from **11 to 18 teeth** for chain transmission assemblies on a 19 mm shaft, where compatibility between **tooth count, chain pitch and bore** must be identified quickly.

This sprocket is suitable for compact mechanical integrations in motor or secondary transmission. Final validation must cover **428er / 08B1 chain compatibility**, the **shaft fixing method, alignment** and **chain tension**.

Key data: 11 to 18 teeth depending on variant, 19 mm bore, 428er chain type, 08B1 standard, 12.7 mm pitch.
