

ZAPI – BLE-X – 36/48V Motor Controller

Reference : ZAP-BLEX-48V-210A

Brand : ZAPI

Options :

No variants

3D Model : Available

EAN-13 : 3762552429087

ZAPI BLE-X 36V/48V 210Arms is a compact traction motor controller for low-voltage electric architectures requiring precise control of ACIM, BLDC, PMAC or PMSM motors. It features CANopen communication, multi-sensor compatibility and I/O logic suited to industrial vehicles, handling equipment, special machines and electric retrofit projects.

This compact electric traction controller combines motor control, machine communication and embedded integration functions in one unit. With 210 Arms peak current, 1.8 kW continuous power, IP54 protection and a 138 × 180 × 87 mm format, it is designed for integrators looking for a consistent 36/48V drive for a compact, maintainable and connected traction chain.
